

BEHAVIOR HEALTH / COUNSELING SERVICES

The Eufaula Dormitory counseling programs provides immediate, intermediate, and long term counseling services. Intakes, evaluations, and an Art Therapy panel are conducted with each student.

Many aspects of behavioral health are addressed such as abandonment, bereavement, abuse issues, and displacement adjustment.

Our program works

with MCN human development agencies and other tribal and non-tribal agencies. These programs provide life skills, healthy choices, referrals, consulting, individual sessions, case management, and additional services. We also work directly with child welfare and juvenile justice agencies. Our program has and utilizes an on-campus Ropes Course that demonstrates and teaches positive choices and trust developing. Our approach promotes intellectual, emotional, and social growth, while emphasizing problem solving, critical thinking and higher order reasoning. This approach engages students in their own development and encourages them to take ownership of their decisions and actions.

FACILITIES

Eufaula Dormitory's 20 acre campus features an Administration Building, girls and boys dormitories, kitchen and dining hall, library and computer lab, gymnasium with weight room, game room and cantina, in-ground storm shelter (capacity of 150), outside basketball court, pavilion and picnic

areas, softball field, sand volleyball court and horseshoes.

The campus also features a 300 KW natural gas generator to

supply power in emergencies to all buildings, including the storm shelter and campus lighting.

We're Here Because We Care

ENROLLMENT

We are pleased that you are considering the Eufaula Dormitory as a place where your child can start the process of a New Beginning. Our program is dedicated to assisting your child to reach their fullest potential as inspired learners, independent thinkers and productive citizens by developing character and educating the whole person. All applicants must be Native American and possess CDIB verification.

WE'RE HERE

BECAUSE WE CARE

Eufaula DORMITORY

**A Proud Heritage of Serving
Native American Children**

Since 1892

EUFALA DORMITORY

The Eufaula Dormitory is a U.S. Department of Interior-Bureau of Indian Education funded peripheral dormitory operated by the Muscogee (Creek) Nation. The dormitory is located in Eufaula, Oklahoma and offers five (5) day residential care services

for Native American students in grades 1-12. All students attend Eufaula Public Schools.

Students are transported to the facility on Sunday afternoon and returned home on Friday evenings.

Our residential and academic support programs provide students the necessary structure and support to promote positive change. Our services foster personal growth, healthy self expression, inspires academic excellence, and teaches individual responsibility and respect for others. The major goal of our program is to realize true healthy growth and assist in the creation of a positive future for each student.

RESIDENTIAL SERVICES

Our program and staff provide a safe, secure and structured environment through quality residential living conditions and ensure the cultural and economic well-being for the students we serve. We promote programs that focus on personal, cultural and social growth, positive behavior, recreation, living skills, emotional well-being and a productive student life.

Eufaula Dormitory students benefit from our team approach that allows for collaborative relationships between professional therapists, academic advisors and residential staff. This

approach also gives students support, supervision and feedback in all areas of life. We truly believe combining a warm, nurturing, caring and structured environment allows students to progress to their fullest potential for life success.

Offering New Beginnings to Native American Youth

ACADEMIC SUPPORT SERVICES

The Eufaula Dormitory believes that learning is collaboration between parents, students, teachers, counselors and administrators. Each has a part to play in student achievement and our hope for each student is to become a lifelong learner. This maturation takes time to develop as the right balance is struck between adult supervision and intervention and a student's ownership for learning. Our education services program involves a rigorous pursuit of learning that is enjoyable and disciplined. The program is designed to facilitate student success through the development and reinforcement of necessary academic skills. Students are required to study for tests and complete homework assignments by tutors who are state certified instructors. These tutors are available in each of three study halls in the afternoon and evening at the public school and dormitory. Eufaula Dormitory's challenging academic support program and broad-based activities are designed to help students experience joy in learning, develop self confidence and understand the common values of academic achievement and personal responsibility.

HEALTH

The Health program assists our students to be physically, mentally and emotionally healthy so they are able to learn. Our students are provided services for medical, dental, vision, immunizations and other specialized services while enrolled in our program. All of the medical needs of the students concerning injury, temporary illness, and chronic conditions are monitored and maintained by the Health Coordinator. The program maintains a positive working relationship with the Eufaula Public School nurse, Eufaula Indian Clinic, parents or guardian, and the counseling services at the Eufaula Dormitory.

NUTRITION SERVICES

The Eufaula Dormitory is dedicated to providing students with high quality food products and service that meet or exceed federal and state nutritional guidelines while accommodating student preferences and meeting expectations of high quality, nutritious food service that is approved through the Oklahoma State Department of Education Child Nutrition Program and U.S. Indian Health Service.

BRINGING HOPE TO NATIVE AMERICAN YOUTH

RECREATION

The Eufaula Dormitory offers a well-rounded recreation program as mandated by the Bureau of Indian Education. Our extensive recreation program is designed to help students have successful experiences through physical, cultural and social accomplishments. Students build self-esteem through their participation and are provided the opportunity to learn problem-solving, teamwork, communication skills and trust. Our mission and goal is to provide a safe and fun environment for all students to be healthy and understand the importance of staying active in a relaxed, fun, and friendly atmosphere that is conducive to meeting their physical and emotional needs.

LEARNING RESOURCE CENTER

The Eufaula Dormitory has developed a comprehensive learning environment that combines both a library and computer lab to create a productive learning experience for our students. The computer lab consists of 20 student PC's with internet, hardware and software applications that are current with applied technologies used at Eufaula Public Schools. The library provides a modest collection of reference materials, required reading literature to support academic needs. In addition, the LRC provides our students other recreational learning and entertainment by providing age appropriate board games, playing music, and showing movies and documentaries. The LRC features an interactive white-board as a tool for engaging students during tutoring and other student learning enrichment programs.
