

Installing Myskoke Creek Language App on an iPhone

Note: Since you can download content on the App Store using your device's Internet connection, you don't need to connect your device to your computer. As long as you have a strong Wi-Fi or mobile data (3G/4G) connection on your device, your apps will start downloading immediately. If it's your first time downloading an app on the App Store, you may be asked to create an Apple ID to download your application.

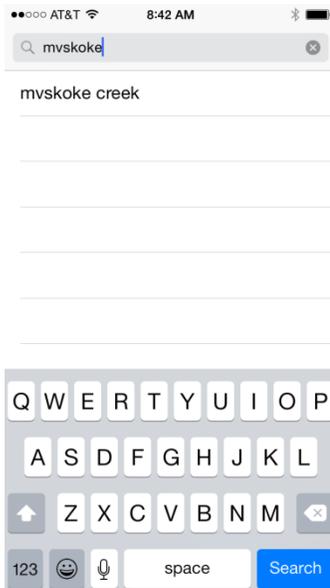

1. Open the Apple "App Store"  app on your device.

2. Tap the “” icon in the taskbar at the bottom to bring up the search bar.

3. Search for the Mvskoke Language app using the word “mvskoke.” Tap the “Search” button to search.

4. You'll see the “Mvskoke Creek” app at the top of the list. Tap the “” icon to install.

5. Accept any prompts.

6. The app will now download and install. It is quite large, so it will take a few minutes to complete.

7. Once it has finished, press “open” and the app will open. It will also make a shortcut called “Mvsokoke Creek” on your home screen.
